DR. PRICE'S BAKING POWDER

A pure, healthful, Cream of Tartar Baking Powder

When buying an article of food you are entitled to know exactly what you are buying—its quality and ingredients.

If this information is refused don't buy it. Some of the low grade baking powders are advertised, but the ingredients of the powders are scrupulously concealed.

A housekeeper would not use a baking powder containing alum if she knew it.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it.

Dr. Price's baking powder is absolutely free from alum.

SENATORS CHAMPION CAUSE OF SUFFRAGE

Thompson of Kansas Says None of the Objections Raised Ever Materialized.

WASHINGTON, March 4.—The cause of woman suffrage was championed in the senate today by Senators Thompson, Owen, Chamberlain and Sherman, who spoke in support of the proposed constitutional amendment to give women the vote in all states.

Senators Reed and Vandaman probably will speak against the amendment tomorrow, when a vote may be reached.

As author of the proposed amendment, Senator Chamberlain told of the influence of women who have the ballot. In response to a question by Senator Reed, the Oregon senator agreed that the recent reforms in his state were inaugurated before the women were given a right to vote.

The attitude of some southern senators was indicated during the discussion when Senator Vandaman said "the negro question may compel me to vote against this amendment."

Senator Thompson told his colleagues that "none of the objections raised against woman suffrage ever materialized in Kansas."

"Only a few of the women sought official positions," he said, "but when they did obtain them, instead of making failures as was expected, they almost invariably made the best officers we had in the state. About one-half of the counties have woman county superintendents of schools, and probably one-third of the county officers have woman deputies. The business record of these women has been invariably good and their industrious efforts to improve schools, sanitation and morals and to provide safe, efficient and economical public utilities for towns have been generally approved and aided by the men of their community."
